1015	D/E Ferguson	E/C	will talk to Paul re: NBT discussion price.
	E/C	D/E Ferguson	want to scale back but don't have the availability of resourcing - that would be a decision coming from you
	E/C	D/E Ferguson	UCBCC down to skeleton would look at standing down once transferred over to NBT's.
1021	Michelle	E/C	keep things how they are - that would be very helpful. Plowing small area of Wellington to be able to facilitate the smudging ceremony.
1032	Antell	E/C	10 cars next door to Kenny U-Plant that were not there last night
1105	Nethercott	E/C	CTC paid duties for Ottawa / Montreal game - ^{tomorrow} approved by E/C

1139	E/C	PPS. Langford Richards Aitchie	Some check points will be moving as the work gets done → check point might end up @ Langwin building @ Elgin/Wellington at one point.
1141.	E/C		Brookson had asked for a seat at the table but Richards stating that is not necessary and will not be attending. @ this time.
1144	NCBCC	E/C	people showing up @ Conroy to pick up their vehs.
1144	traffic	E/C	ready for their release.
1147	operations	E/C	Conroy right now is just one veh with 4 occupants.
1230	E/C	Carson	briefing about possibility of turning over to NBT's as of possibly monday with assistance of some of OPP/BCMP resources. could shut NOC and NCACC down and have them managed by NBT chain of Command. I have asked NBT representative to come spend the day to determine future actions and

			supports that might be needed. Realizing static/observation points all along Queen while City completes the work. may still be required.
1236	Groulx	E/C	we have traffic driving up Wellington - traffic points officers are letting vehs by and not just PPS.
1237	E/C	Kunzken Groulx	zero vehs access except for PPS.
1239	Carson		NBT option makes sense to me I know they will be asking for presence. Looking @ deployment/Demobilization (stand by) of 1/2 crew OPR/BCMP but keeping them in town.
1241	E/C		my view - NBT specialized team take ownership w recommendations for this week - next weekend heavy presence/enforcement to the no stopping on Wellington w strong communications w Ontell to know what is coming what will scale back looks like
	Carson		9m

time	from	to	Notes
1245	EC E/C EC	Carson	24 hrs coverage team of 4 market / Centre town. Using RCMP/OPP to augment presence - recommendation is to re-open Wellington to regular traffic so it deters becoming party Central. But have NPIT have a say in how to roll it out - don't want to dictate.
	Lue E/C		want numbers and duration De-escalation piece we see 20 extra cars doubled every shift is where my head is at.
	Carson.		would have to be Wellington to Queen → due to city still doing ^{infrastructure} their work to bring down and clean up. We have to ween the public of police presence and accept the "new normal"
	Carson	E/C	Do you still need same posture @ night that you have during the day?

Dan

<u>time</u>	<u>from</u>	<u>to</u>		<u>Notes</u>
	Springer E/C	Carson		all business - no residences if 7am - 1900 pm I would be OK w reduction in numbers. As for weekend - would need intell to feed us the need to augment.
1753	Francis	E/C		13 + Sgt day 5st + Sgt night is what I think. I would see it through this coming week and following weekend to make sure they don't come back.
1756	Carson			EMC ^{under the} PS EMCPA would you still have points of all 5 exits covered?
1757	Francis			suggest fall back to regional for that.
1758	Carson			yes that is what I was thinking
